EDUCATION

The Pennsylvania State University *Erie, PA*
College of Engineering & Black School of Business at Penn State Behrend *Graduation: May 2027*
Bachelor of Science in Computer Science *GPA: 3.29*
Minor in Management Information Systems (MIS)

AAUW Carlisle Higher Education Scholarship
Shelly and Shirley Czulewicz Trustee Scholarship

RELEVANT EXPERIENCE

App Development Team Lead *Erie, PA*
Penn State Behrend Virtual/Augmented Reality (VAR) Lab *March 2025 – Present*

- Lead app development initiatives using React Native and Expo Go, overseeing the software development lifecycle
- Manage and collaborate with a team of 5 programmers, ensuring code quality and milestone tracking
- Oversee project pacing, deliverables, and performance metrics
- Test, debug, and optimize code for performance and user experience consistency

IT Project Management Intern *Harrisburg, PA*
TE Connectivity *May 2025 – August 2025*

- Organized and facilitated meetings with project stakeholders, ensuring clear communication and progress alignment
- Learned and contributed to creation of project management documentation including CONOPS, BRD, and RASCI charts
- Participated in daily multi-project meetings and a week-long global trade workshop, gaining experience in large-scale, multi-region coordination
- Supported documentation and communication processes

Student Technician *Erie, PA*
Penn State Behrend Information Technology Services *April 2024 – December 2025*

- Provide IT support in computer labs, classrooms, and offices
- Respond to staff members to resolve tech-related issues using the ticketing system ServiceNow
- Process salvageable devices and wipe disks using KillDisk

Information Technology Intern *Newville, PA*
Big Spring School District *June - August 2023 & 2024*

- Collaborated with a team to factory reset and prepare devices on the school domain
- Repaired laptops increasing the productivity of upper-level techs on separate projects
- Dismantled Windows and Chrome OS devices into parts for future repairs
- Organized classroom tech that included updating software, setting up hardware, and cord management

SKILLS SUMMARY & INVOLVEMENTS

Languages: Java, SQL, C++, JavaScript (React Native Framework), WebDev (HTML5, CSS), Python
Software: Microsoft Office, Google Workspace, ServiceNow
Involvements: VAR Lab; Behrend eSports Design Board (Design, Web Programming, Casual Gaming)

CERTIFICATIONS

NVIDIA Fundamentals of Deep Learning Certification
Workshop Sponsored by NVIDIA and the School of Engineering at Penn State Behrend *26 October 2024*

- Attended an instructor-led course that provided a foundation in deep learning techniques
- Completed a final assessment that required at least 92% accuracy on the validation dataset
